## FLEET MANAGEMENT AND DISPATCH

## Manage dedicated and private fleet resources including driver, tractor and trailer planning and execution

DISPATCH WORKSPACE

Minimize your company's miles while optimizing hours of service, availability, compliance, seniority and service needs.

## Features + Functions

- Optimize use of all assets, including drivers, tractors and trailers
- Balance loads across shifts and resources
- Provide driver support with dispatch and kiosk support
- Support long-haul and storedelivery routing needs
- Ensure compliance with federal regulations
- Enable real-time visibility of inventory in motion
- Provide proof-of-delivery visibility
- Execute more efficiently and quickly adapt to changes

- Enable driver-centric workday view for managing dispatch tasks
  - Provide visibility into empty moves
  - Support non-trip-based driver activities to assist with scheduling and payment requirements
  - Provide ability to allocate and assign team drivers
  - Manage relays efficiently
  - Provide an activity audit trail for better compliance
  - Manage driver debriefs
- Integrate to OBC and ELD
